

# Diario Lunare

cerca, osserva, disegna

28 cerchi per 28 giorni e 28 osservazioni  
Parti dal G1 e prosegui ogni giorno fino a G28.  
Ogni giorno: cerca la Luna, osservalo e disegna  
la forma nel cerchio di quel giorno  
Se salti un giorno lascia il suo cerchio in bianco

<b>G1</b>  data: ora:	<b>G2</b>  data: ora:	<b>G3</b>  data: ora:	<b>G4</b>  data: ora:	<b>G5</b>  data: ora:	<b>G6</b>  data: ora:	<b>G7</b>  data: ora:
